SUMMARY

Product-minded business analyst and MS Business Analytics & Information Management candidate with 3+ years across product requirements, Agile delivery, consulting, and analytics. Seeking Product, Project, or Program Management roles.

SKILLS

Product & Program Management: Product Requirements (PRD, BRD, FRD), User Stories, Roadmap Prioritization, Agile/Scrum, Sprint Planning, Backlog Management, Stakeholder Management, Cross-Functional Leadership, Risk & Dependency Management, Success Metrics/KPIs, Executive Reporting

Analytics: Data Analysis, Financial Modeling, Predictive Modeling, Statistical Analysis, ROI Quantification, Data Visualization, Gap Analysis, Root Cause Analysis, Requirements Gathering, Business Problem Framing

Tools & Technical: SQL, Python, Excel, Tableau, Power BI, Databricks, GitHub, Salesforce, AWS, Jira, LightGBM, Cloudflare Workers (D1, KV, Workers AI)

PROFESSIONAL EXPERIENCE

Graduate Data Science Researcher | The Data Mine, Purdue University

West Lafayette, Indiana

Corporate Partner: Johnson & Johnson

August 2026 – Present

- Collaborating with Johnson & Johnson mentors on the QSTEPS AI-Enablement project, focused on improving a manual scheduling and coordination workflow as part of the Package Generation team.
- Authored PRD sections defining the problem statement, primary user, project scope, and success metrics.
- Developed TSD sections covering phased implementation, data and systems touched, and error handling and fallback procedures; use GitHub to collaborate on project work.

Kearney | Client: CARE Pharmacies

West Lafayette, Indiana

Industry Practicum – Strategy & Analytics Consultant

January 2026 – May 2026

- Quantified \$33.9M in annual member value (on- and off-invoice) across 93 pharmacies by synthesizing 4 quarters of wholesaler data, delivering executive-ready reports to Kearney and CARE leadership to guide roadmap prioritization.
- Designed a rule-based financial savings framework standardizing WAC, COGS, and aggregation logic across 3 agreement types and 2 account categories, enabling consistent savings calculation across \$870M in annual purchasing spend.
- Built data visualizations and user-facing insights for CARE leadership, identifying an ~\$8.8M off-invoice savings opportunity for group stores and pinpointing where member value was being left unclaimed.
- Surfaced a structural gap in how value reaches members: independent stores receive 50% of their value through rebates vs. only 12% for group stores, informing how CARE structures future member programs.
- Delivered on-invoice savings analysis revealing a consistent ~3% savings rate across both member segments despite a 3.4× volume difference, demonstrating that the \$15M savings gap is driven by purchase volume, not pricing advantage.

TSS Consultancy Pvt. Ltd

Mumbai, Maharashtra

Associate Business Analyst

April 2023 – June 2025

- Led Trackwizz AML product configuration for 50+ BFSI clients, aligning each setup to client compliance requirements and improving operational efficiency by 20%.
- Reduced manual compliance review time by an estimated 15+ hours per week across client implementations by streamlining AML screening and review workflows.
- Collaborated with an 8-member cross-functional development team to plan and track bi-weekly Agile sprints, removing blockers and maintaining 95% on-time delivery of features aligned with product requirements and timelines.
- Authored 15+ BRDs, FRDs, and user stories in close collaboration with clients, capturing business needs, defining acceptance criteria, and securing stakeholder sign-off before development began.
- Translated client business needs into clear technical requirements for the engineering team, reducing ambiguity during development and contributing to a 95% on-time delivery rate across multiple implementations.
- Delivered detailed client reports and requirement documentation with high accuracy, receiving 100% positive client feedback and supporting consistent, on-schedule releases across consecutive sprints.

RNS Technology Services

Mumbai, Maharashtra

Associate Technical Consultant

October 2022 – April 2023

- Provided expert consulting to 12+ clients on digital identity management, enhancing security and efficiency while guiding strategy design to mitigate access and misuse risks.
- Enhanced security and operational resilience for clients, enabling to protect sensitive data and assets in a dynamic threat landscape, reducing security breaches by 25%.
